

January 20, 2010

Greetings in Christ!

Why? That is the question that is being asked by people throughout the world as they watch the images coming out of Haiti. We understand that God didn't do this. It was as a result of a sin filled world brought about by man's original sin. It is God who will bring good out of this horrible event. How will He use you?

Creation and Life issues in the news:

Scientists prove evolution works!...on a computer

Date: January 17, 2005

On the cover of the February 2005 issue of Discover magazine is the title "BREAKTHROUGH - Testing Darwin - Scientists at Michigan State PROVE EVOLUTION WORKS" printed across the photo of an ape. Someone seeing this cover might, and it is clearly intended that they should, believe that an experiment conducted at Michigan State University has proven some aspect of the evolutionist story. The facts are quite the contrary. To read more of this article, follow this link:

Thousands Protest New Texas Abortion Clinic:

Thousands of pro-life demonstrators gathered on Monday to protest what they call "an abortion supercenter" in Houston, Texas.

An old bank building is being transformed into one of the largest Planned Parenthood facilities in the country. When construction is completed, it will be one of the largest abortion clinics in the nation at almost 80,000 square feet. To read more, follow this link:

Nature Watch: We've had a extensive period of wonderful weather, but it sounds like it may be changing. Warmer temperatures have been welcomed by many animals that have ventured out for mid-winter frolicking, feeding, and drinking. We've sighted many pheasants along the road again this week. Deer have also been moving. Many deer yard up during this time of year. They especially do that around marshes, hidden hay fields and along oak forests where they are searching for the acorns that have been covered by the snowfalls of December. We've had lots of frost on the trees lately. Sometimes call hoar frost or radiation frost it comes about when objects are colder than the dew point of the air. This time of year can lead to cases of depression among those affected by SAD (seasonal affective disorder). Some scientists have actually determined that January 18th is the date statistically more depressive than any other.

Program Information: We've added another parochial school that will be heading to camp for our winter outdoor education program. Zion Lutheran School in Alexandria will be here in February. You'll want to add April 18th on your calendar for our annual Creation and Life

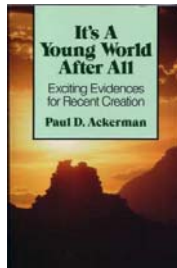

Issues Convocation. Women can enjoy our guest speakers for an entire weekend at Lutheran Island Camp for the Women's Retreat where Dr. David Menton and Heather Ruesch will be providing our program.

God's Word: Jesus is the image of the invisible God, the firstborn of all creation; for in him all things in heaven and on earth were created, things visible and invisible, whether thrones or dominions or rulers or powers-- all things have been created through him and for him.

Colossians 1:15-16

Prayer List: 1.) we want to lift up prayers of rejoicing for how God is working through the catastrophe that hit Haiti. May God continue to raise up volunteers, donors, and prayer warriors as well as to provide comfort to those who have been hurt. 2.) Please keep our staff in your prayers as we have more traveling coming up. 3.) Continue to keep our task force in your prayers. 4.) Prayer for guidance for our legislators who are contemplating health care reform that could allow abortions to be paid for by our taxes. 5.) Continue to remember our children in your prayers. They continue to be inundated with the lies of evolution and Darwinism.

Link of the week: <http://www.allaboutcreation.org/>

Resource of the week: **IT'S A YOUNG WORLD AFTER ALL** by Paul Ackerman: 13 chapters packed with hard-hitting scientific evidence showing that the Earth cannot be millions of years old. Well documented, with references; a time-tested creation science classic!

Question and Answer:

Question: We can't make it to the Preparing for College weekend. Will there be another one scheduled?

Answer: Probably not this year. But there are several other alternatives. One would be to come to our **Young Scientist** program. Another would be to join us for the **Teaching Creation to Your Family**. And, this fall we will have a program again called **Responding to Evolution**.
