

March 3, 2010

Greetings in Christ!

Once again we are awed by the power of God's creation let loose with the recent earthquakes in Chile, said to be 500 times more powerful than those that hit Haiti in January. Now we watch as God's power through His word and His servants shares the message of love and grace to those affected.

### **Creation and Life issues in the news: Al's Latest Global-Warming Whopper**

Al Gore's defense of global-warming hysteria in Sunday's New York Times has many flaws, but I'll focus on just one whopper -- where the "Inconvenient Truth" man states the opposite of scientific fact.

Gore wrote, "The heavy snowfalls this month have been used as fodder for ridicule by those who argue that global warming is a myth, yet scientists have long pointed out that warmer global temperatures have been increasing the rate of evaporation from the oceans, putting significantly more moisture into the atmosphere -- thus causing heavier downfalls of both rain and snow in particular regions, including the Northeastern United States."

It's an interesting theory, but where are the facts? To read more, follow this link:

**Nature Watch:** Sandbag filling started earlier this week in the Fargo-Moorhead area. That is a sign of spring and of the concern we have for the ravages of flooding during another Spring.

**Program Information:** We are finalizing the plans for the weekend of April 16-18, 2010. Dr. David Menton of Answers in Genesis will be our guest for a number of events. Included will be an informal gathering of college students Friday evening the 16<sup>th</sup>. It will be held in the Moorhead area. On Saturday Dr. Menton will be our guest presenter for the Women's Retreat at Lutheran Island Camp. On Sunday, Dr. Menton will be the quest presenter at the Adult Bible Study at Our Redeemer Lutheran Church in Moorhead. Then from 2:00 – 3:30 we will be hosting the Creation and Life Issues Convocation at Our Redeemer in Moorhead. For more information and to order tickets (no charge), contact us by mail at [info@christserveranch.org](mailto:info@christserveranch.org) or by calling Lutheran Island Camp at 218-583-2905. There will be a free will offering to support of Creation-Science Environmental Learning Center at Christ Serve Ranch.

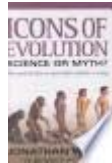

**From the Task force:** The Task Force made a decision at their recent meeting to clarify the various names that are associated with their efforts. The primary name will be the Creation-Science Environmental Learning Center (C-SELC) at Christ Serve Ranch. One of the members is working on a organizational chart that will show the various entities that are involved and how they relate to each other. Several of the Task Force members have agreed to take on visits to prospective LLC members and the entire Task Force will continue to identify

prospective donors and investors.

**God's Word:** He looketh on the earth, and it trembleth: he toucheth the hills, and they smoke.  
Psalm 104:32

Prayer List: 1.) Continue to remember the people of Chile in their great hour of need as a result of the recent earthquakes. 2.) Please remember the many volunteers and city officials who are focusing efforts on flood preparation. 3.) Begin praying for the success of our Creation 4.) Thank God for the wonderful event with the youth from Zion Lutheran School in Alexandria 5.) Pray for healing for Parker, a little one hospitalized with a severe staph infection. He is the child of Josh and Cheryl Krage. Both are supportive of our efforts with Creation-Science.

**Link of the week:** [http://www.conservapedia.com/Main\\_Page](http://www.conservapedia.com/Main_Page)

**Resource of the week:** **Icons of Evolution** by Jonathan Wells goes into great detail about 10 theories that evolutionists have put forth that have all been disproved yet most remain in text books.

Question and Answer:

Question: Can earthquakes hit in Minnesota?

Answer: Yes, this writer remembers the one that hit on July 9, 1975. It hit near Morris, but was felt at Lutheran Island Camp. The largest to hit in Minnesota was at Long Prairie in 1860 and was estimated to be a 5.0 earthquake.
